WORK EXPERIENCE

Ondokuzon Yazılım | Intern   November 2023 - present / Remote

- I developed the **WeatherApp project**, where users can retrieve **weather information** by entering the location name. I used **HTML**, **CSS**, and **JavaScript** for this.
- I developed the **TodoList project**, where users can list and track their tasks, and it provides **multi-language support**. I used **MUI** and **i18next** for this.
- I developed the MedTracker project, which allows users to list and track their **medications**. This app provides **real-time database support** and user interaction functionalities. I used **React Native**, **LottieView**, **Firebase Database**, and **Firebase Authentication** for its development.

Teknoloji Menajeri | Intern   January 2023 - present / Remote

- **Collaborated** with Hayal Gücü Derneği to support **university students** affected by the 2023 Kahramanmaraş Turkey **Earthquake** in accessing **internships** and **jobs**.
- Prepared **Google Forms** application form to identify **support needs** for **education** and **work life** requirements.
- Developed **planning** and **program** for **E-Commerce 101 training** at Iskenderun Technical University for **earthquake-affected students**.
- Engaged in '**Preparing for My New Job**' event organized by **Kodluyoruz** in partnership with **Microsoft**.
- Assisted in the idea phase for organizing a **Hackathon** with Adana Cukurova University **Technopark** for Hatay province post-2023 Kahramanmaraş **Turkey earthquake**, focusing on distinguishing between **utopian** and **dystopian** scenarios.

SKILLS

- Web Development: HTML, CSS, JavaScript
- Frameworks & Libraries: React, React Native
- User Interface Design: UI/UX principles, Material UI (MUI)
- Multi-Language Support: i18next

- Version Control: Git
- Collaboration: Teamwork, Communication
- Problem Solving
- Adaptability and Quick Learning

EDUCATION

Bachelor's Degree in Computer Engineering   Aug 2019 - present

- GPA: 2.70
- Iskenderun Technical University (ISTE)
- Expected Graduation Date: July 2024
- Drug Tracking Application: Developing an application using **Java OOP**.
- Erosion Prevention Project: **Collaborated** with ISTE Tema community to gather acorns known for preventing **erosion** in Bitişik Yayla area, aiming to **reintegrate** them with soil.

CERTIFICATION

Siliconmade Academy Basic Programming   Jan 2021 - March 2021

- I **completed** the Siliconmade Academy Basic Programming course, equipping me with essential technological literacy and fundamental programming skills. Through this program, I developed **algorithmic thinking abilities** and had valuable mentorship sessions with industry experts, **gaining insights** into **business dynamics** and **learning** from successful professionals' experiences.

React Native Mobile App Path | Patika.dev   May 2023 - present

- Currently, I am undertaking the React Native **Mobile Application Development** track with patike.dev, which is endorsed by the International Labour Organization. This ongoing journey is equipping me with the **expertise** needed in **Mobile Development**, as I **delve into React Native**, a prominent **framework** in **JavaScript**. I am **mastering** the **skills** necessary to **develop applications** for both **Android** and **iOS** platforms through this program.

INTERESTS

- Technology and Software Development
- Researching and Exploring New Technologies
- Mobile App Development
- Web Design and User Experience
